

Clarus Initiative

ICC Meeting # 2

Scenario H:
National Oceanic and Atmospheric
Administration Function

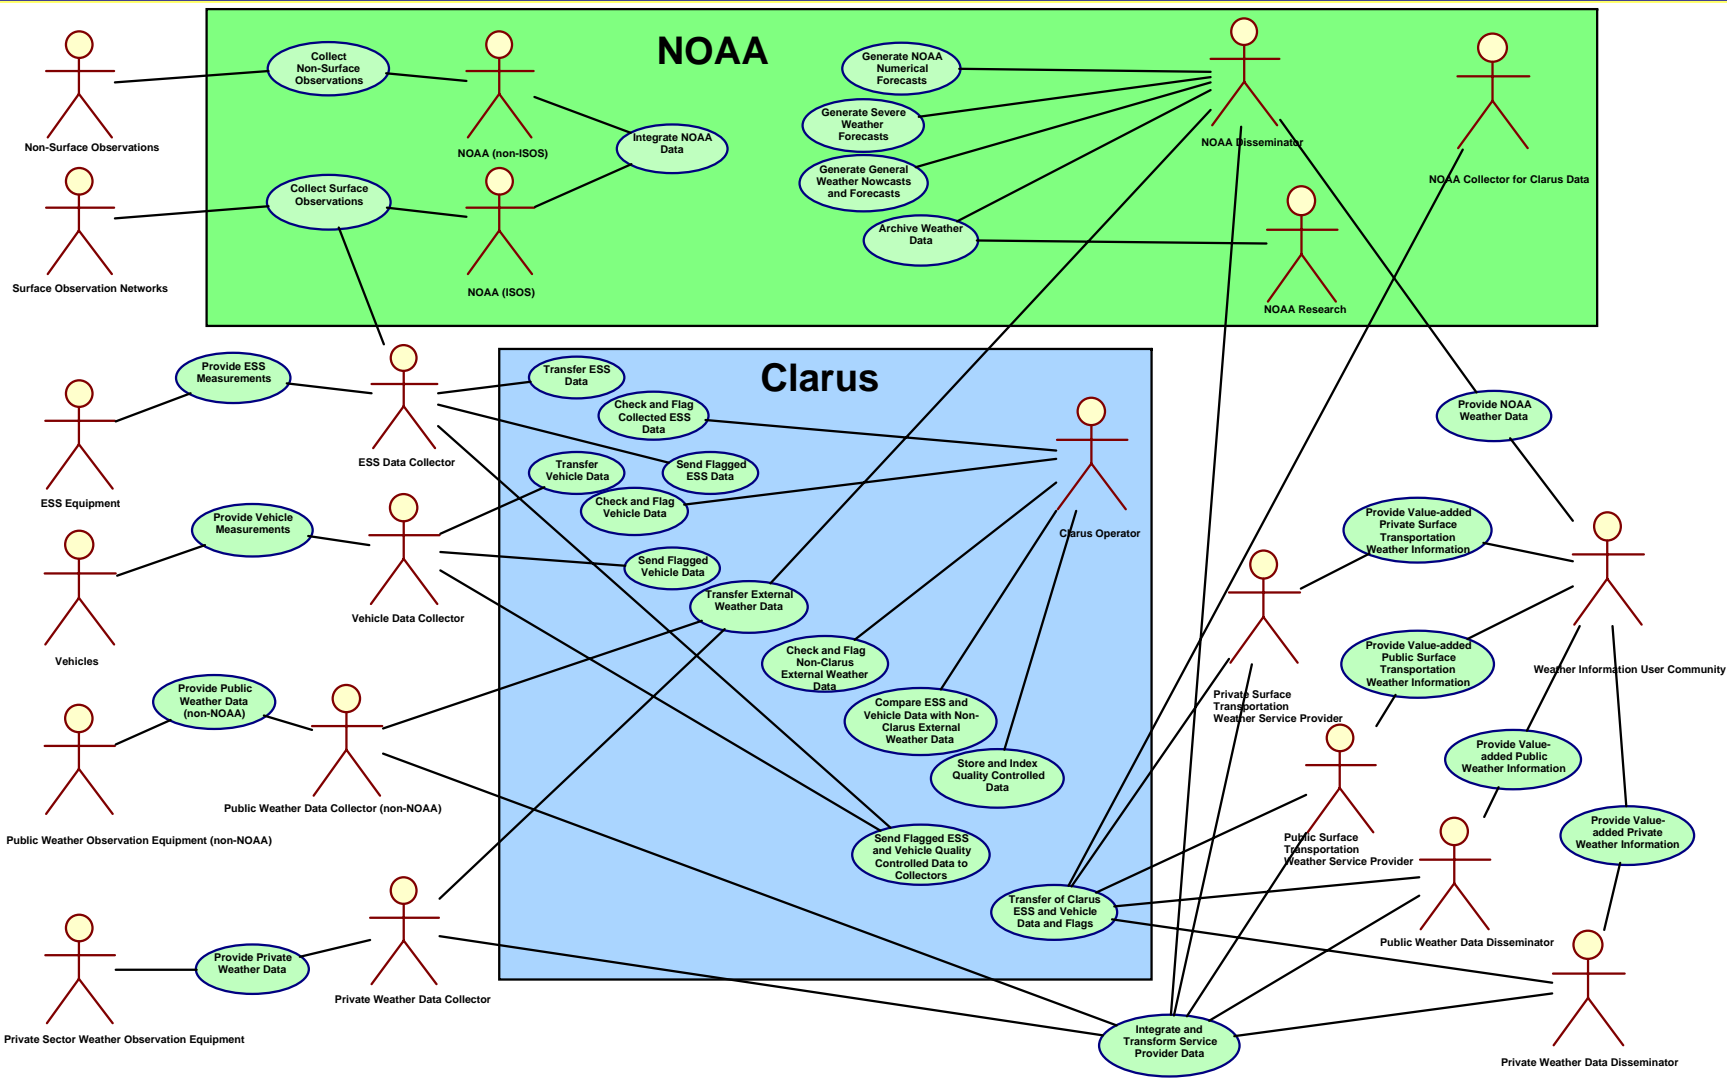

National Oceanic and Atmospheric Administration Function

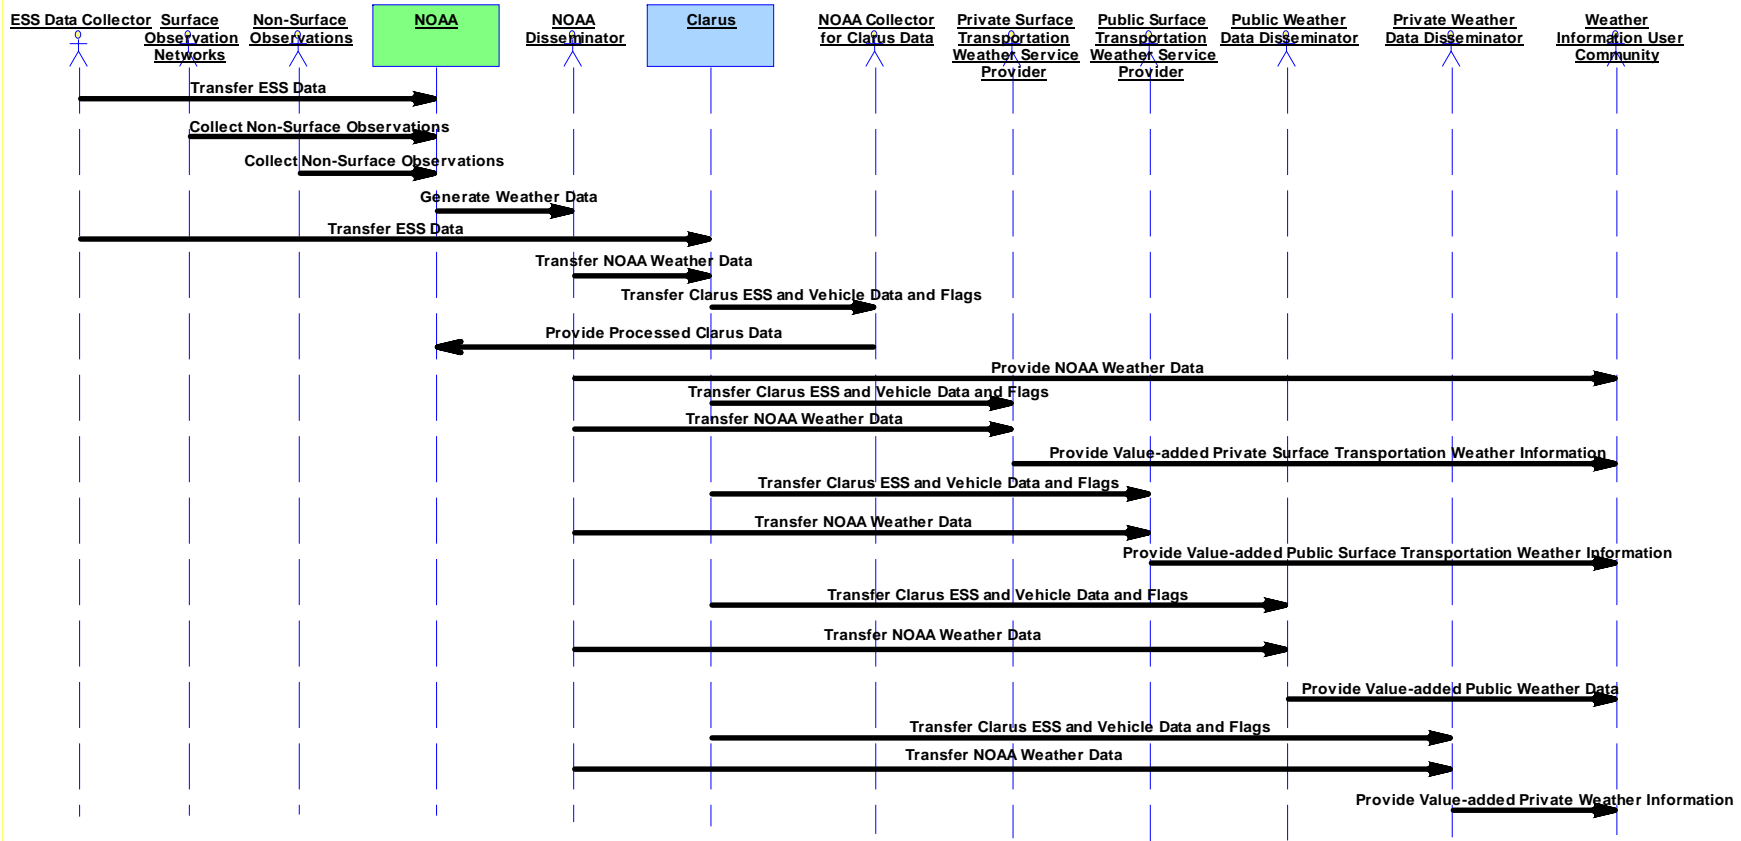

- Provide data to and receive data from NOAA
- Supplement NOAA's Integrated Surface Observing System (ISOS)
- Higher resolution data to support and verify forecasts and warnings
- Support research activities

Use Case Diagram

Sequence Diagram

Discussion Topic # 1

1. Do the use case scenarios documented in the Concept of Operations report capture all the Clarus operational needs?

Discussion Topic # 2

2. Do the actors/use cases interfacing in the Clarus System adequately capture Clarus operations in support of your needs?

Discussion Topic # 3

3. What potential changes do you anticipate in services rendered by Weather Service Providers as Clarus becomes an active quality-controlled data clearinghouse resource?

Discussion Topic # 4

4. How will Clarus differ from what is presently provided by Weather Service Providers?

Discussion Topic # 5

5. What are the advantages / disadvantages of a regional vs. national Clarus data collection and/or dissemination system?

Discussion Topic # 6

6. Are there other technical/institutional issues affecting Clarus in addition to what is contained in the Concept of Operations report?

Discussion Topic # 7

7. What other task force groups are needed for the design phase (e.g., standards and architecture)?

Discussion Topic # 8

8. What is the scope of Clarus vis-à-vis related State DOT databases such as road condition (e.g. CARS, HCRS, IRIS) and CCTV servers?
